

# BIBLICAL BASIS FOR LEADERSHIP

What does Scripture say about leadership?

## As a board...

- Read each of the passages listed below
- Ask if there are other passages or examples from scripture worth exploring
- For each passage identify a **Biblical characteristic of leadership** and write it on a white board
- Discuss what would it look like for you, as individuals on your board, to live out each of these characteristics?
- What could we do as a board to spur each other on in these areas?
- Create a list of leadership characteristics that you want to use to encourage and to keep each other accountable.

---

*One idea might be to publish the list of characteristics on the back of your written agendas.*

---

## Individually

- Reflect on which characteristics are strong and which are growth areas for you
- How can you encourage your strength in others
- What steps can you take to develop your growth area?
